

NON-COVERED SERVICE WAIVER FORM

Private insurance will only pay for services that it determines to be "reasonable and necessary" under section 1862 (a) (1) of the Medicare law. If your insurance company determines that a particular service or treatment is "not reasonable and necessary" under Medicare program standards then they will deny payment for that service or treatment unless explicitly stated the service or treatment would be otherwise covered. Under these circumstances, a bill is not submitted to your insurance company and these charges are your responsibility.
